Cutting data calculator ToolExpert AX-FPS

Use ToolExpert AX-FPS to determine the best possible cutting data for your machining environment!

With the new ToolExpert AX-FPS calculator, you are guaranteed the most cost-effective solution on the market for determining the cutting data for roughing aluminium in line with your machining environment!

Metal removal rates of up to 18,000 cm³ / min (!) can be achieved with the new AX-FPS technology. However, high-performance roughing of wrought aluminium alloys is not influenced by the tool, but by the actual machining environment.

Consequently, ToolExpert AX-FPS lets you describe your machining environment quickly and easily, so that you can determine the cutting data that is most efficient and reliable for your application. This new and unique option will significantly reduce your machining times and production costs.
